Born in suburban south London in 1958, Colin Sackett has been making and publishing books since the late 1970s, working with Coracle Press during the 1980s, and subsequently as a book designer collaborating with many artists and writers. During this time his own work has been an investigation of editing and content, the licence to take broad issue and to play with form and structure. He started the 'terraced publishing house' Uniformbooks in 2011.
